|-----------------------------------|----------------------------------|

| Mechanical data         |                                          |
|-------------------------|------------------------------------------|
| Enclosure               | PA6.6 black (encapsulated magnets)       |
| Magnet                  | Neodym-iron-boron (NdFeB)                |
| Ambient air temperature | -20 °C ... +80 °C                        |
| Application             | Magnetic limit switch type <b>MAK 53</b> |
| Installation position   | operator definable                       |
| Pollution degree        | 3 acc. to EN 60947-1                     |
